**JUNIORS HELD 8-4 LEAD.**

**DEFENCE COLLAPSES IN 3RD**

Perry Sound Shamrocks made only one worthwhile last night when they came from behind an 8-4 deficit to hold off the Indians 8-4 in the last twenty-five minutes and wrap up a 1-3 victory.  
The Shamrocks' run after the game gave them a sixteen to eight edge in penalties but they managed to break up the Indians' passing game and wear them down for the rest of the night.  
The Indians fired a 4-3 lead in the first period and looked good for more. With five minutes to go in the second period the Indians had raised up four more goals to the Shamrocks lead and appeared to be in full command.  
About this time the Indians' defence collapsed and the Shamrocks ran in five unanswered goals in four minutes.  
Merv, in the Indians net had a tough time in his first period. With the Shamrocks shooting hot, the goals would frequently stop the initial shot and the Shamrocks would shoot the rebound before the Indians had a chance to clear.  
Ron Tveit led the Indians attack with three goals and two assists. Jack Graham added a pair as did Dick Pinkey, Kelly and Sprink completed the Indians scoring. The last goal by Sprink came at 2:31 of the third period to tie the count 4-4.  
For the Shamrocks, Nicky Brady and McPherson each scored three goals. Calder scored two while Harvey and Thabedung scored one each.  
Tveit, Sprink, Pinkey, Graham and McPherson showed back for the Indians while all eleven of the Shamrocks played equally rugged and showed their penalties. Calder, the Shamrocks goalie, really got to it in drawing nine minutes in penalties.  
Calder scored the Shamrocks' goal in the empty Lindsay net at 19:41 of the third when Edwards drew a sliding penalty and the Indians goalie was unable to stop an extra shooter.

# Our Own Other Opinions

## THE NEW YEAR . . .

This is a time of the year when time stands still for a split second . . . that almost instantaneous period when the year again goes to the new and all the forces of life and creation begin another lap on life's adventuresome journey. It is a time of the year when there is great play on words . . . a time when we humans endeavor to examine the past and resolve the future . . . a time when we extend good wishes for the future.

What better time to resolve to seek in our daily lives God's work for us? And what better way to ensure for our neighbors and ourselves a "Happy New Year"?

## HOW WELL ORGANIZED ARE WE IN CASE OF EMERGENCIES?

The appeals for assistance which have been made following two fires of recent date in Lindsay have caused many people to wonder to what extent we would be able to cope with an emergency of some proportions. While everyone is delighted to help people who are visited by misfortune, it is apparent that in the case of hit-and-miss appeals for assistance sometimes inadequately reveal themselves. For example, if the fire or other disaster occurs during a season when emotionalism is more or less rampant the response may be extremely generous . . . generous almost to the point of wastefulness, whereas if the disaster occurs during normal periods the assistance forthcoming may be skimpy to the point of insufficiency. In the past "giving" persons who will likely incur considerable overlapping and items will be contributed which probably never constituted part of the stricken family's way of life and are therefore foreign to the need. When the giving season is over the job shortages of even essentials may cause suffering.

It would appear that an emergency relief committee with equal powers to draw on any of the funds of the Red Cross, Salvation Army and other organizations which participate in community welfare drives, is needed to co-ordinate efforts to give effective and equitable response to those experiencing disaster of crippling proportions. Such a committee would be able to prevent waste, provide essentials, and appeals bordering on hysteria would be unnecessary.

Lindsay and the district surrounding it is made up of a generous and warm-hearted people . . . they do not wish to see hardship inflicted on anyone . . . they do not wish to see aid to the afflicted . . . they want to do these things smart, efficiently and in a manner which is fair to all having occasion to need assistance in time of disaster.

Wouldn't it be a calamitous disaster if we were to find it necessary to resort to hit-and-miss appeals in a major calamity? Imagine the complete confusion which would ensue! Isn't it time we gathered up the talents and the brains of the community and organized a new? Who will chart the course . . . the Mayor? the Wardens? or a combination of leading citizens?

Isn't it the merest check of the organizations now established for rendering disaster aid to be able to ascertain their present method of operation?

We are indebted to a thoughtful civic official for bringing these thoughts to our attention.

## THE MAN BEHIND THE WHEEL

Prompted by the holiday slaughter on the highways of the continent, Attorney-General Roberts has called for some sort of joint action by Canada and the United States to curb the accident toll. He suggests a high-level conference of government authorities, automobile manufacturers, and law enforcement agencies, under the sponsorship of Prime Minister St. Laurent and President Eisenhower.

It may be that nothing short of continual drastic action across the whole continent with some sort of uniform effective measures and control of the licensing, construction, use and enforcement of laws will bring relief.

There was more than a hint in Mr. Roberts' statement that it may yet be necessary to control the automobile industry in some measure in order to bring about highway safety. The aspect of his remarks was later elaborated by a colleague, Planning Minister Nickle, chairman of last year's Select Committee on Highway Safety.

Mr. Nickle referred specifically to horsepower and hood ornaments as features of today's cars which Governments might well have to regulate. Both Ministers are perfectly right in their remarks. Cars can be made safer. But this is not the essential problem. The essential problem is the man inside the car.

The key to control of the highways is in the licensing of the driver. It is not the car which is the problem. It is the driver. It is the driver who must be determined that. No matter how safe automobiles may be made, if irresponsibles are allowed to get behind the wheels, death and danger will continue to roam the highways. A licensing system which weeds out the reckless, the lawless and the incompetent—and keep them off the highways—is the first thing needed.

It may be, as Mr. Roberts suggests, that some sort of co-ordinated action by National Governments, Provinces and States, is needed. But no effort of this kind will be effective unless and until authority is doing its job in its own country. Similarly, assistance upon safer cars is useless unless licensing and enforcement produce safer drivers.

Ontario will make a start on this first and essential reform with the New Year. Henceforth all prospective drivers will have to pass written examinations in order to obtain a license. Providing the tests are more stringent than the evidence indicates they are, this will greatly prevent the number of fools on the highways from being increased. The next big step—and it should be done immediately—is to get rid of irresponsible now in the driver's seat through proper re-testing and a point system of licensing.

The foregoing comments make interesting reading.

ing but, having reference to a demand for a speeding-out test of irresponsible off the road, it would appear that such a system might constitute a bureaucracy of staggering proportions. The idea of controlling horsepower output is, we believe, not without merit since speed and irresponsible driving habits seem to have something in common. The stimulus of speed having an effect similar to the stimulating reaction which power of any kind gives some people. It is interesting to note that no mention is made of the role alcohol plays in creating a growing traffic menace in Ontario where it is a simple matter to purchase intoxicating liquor, drink an unsafe amount and climb in behind the wheel. Why is there a reluctance to include this dangerous situation when considering traffic accidents and possible ways of preventing them?

## MARGARITE FOR CANADIAN POOR CANADIAN BUTTER FOR RUSSIA

It has been voted by the United Nations' Council that the inmates of the House for the Aged must now eat margarine in place of butter. This constitutes a saving to the countries' pocket-books, and we are assured that one product is just as good as the other. So our conscience may be saved by either greasy substance.

BUT, Canada is selling butter, and now, wheat, for too Canadian money to be sold in Russia. These subsidies come out of YOUR pocket.

Since when must the poor of Canada eat margarine while the people of Russia and her satellites may consume Canadian products at less than it costs the people of Canada to produce them?

We also point out that butter may be chemically processed for other uses than human consumption. If you are satisfied to have part of your tax dollar spent in feeding the people and maintaining the tools of war of your potential enemies—well and good. But why shouldn't that tax dollar go back on the table and into the tumblers of needy Canada?

"From swords to ploughshares"—that is a fine peace time objective but it appears that the Iron Curtain Countries intend to keep the swords and let us have the ploughshares.

## SECRET BUTTER PRICES

There is an obvious world demand for butter. It is obvious not only because Canada is able to sell storage lots in the millions of pounds, but also because New Zealand, the other major butter producer, also has had receiving better prices from at least one of our recent customers, Czechoslovakia. But with all this inter-hemispheric trade, there seems to be no world price.

Agricultural Minister Gardiner, in confirming the Canadian policy of not selling below world prices, pointed out that he had been given a list of nations buying butter from New Zealand and the prices involved. But he cannot disclose the prices because they are confidential. Whatever the New Zealand prices are, they are more likely to represent some approximate world price, as she markets her butter to prevent the accumulation of surpluses, while Canada and the United States market them to work off surpluses accumulated under price-support plans.

Nevertheless, the so-called free world is getting no nearer the ideal of freely conducted multilateral trade when international prices are held to be confidential—which means secret, except for those who are accepted as confidants. By such manoeuvres, the element of auction is eliminated, and the world gets farther and farther away from the principles upon which international trade in commodities has been built. But perhaps there really is no limit to the extent to which such abnormalities may be accepted as being normal.

## PRIVATE LIVES

People were enormously interested in the Dionne quintuplets at the time of their birth, and for several years thereafter. But now that they are grown women, and death has reduced their number to four, does anyone care? Every word and action, does every word and action of their parents and brothers and sisters, merit screaming headlines?

There is, it would seem, a rift in the four young ladies' relationship with the rest of the family. We cannot believe, however, that it is in sufficient importance for some newspapers to make their main item of attention for three days in a row—and, in so doing, to hound the four girls as Princess Margaret was hounded at the time of her marital disaster.

Every family has its differences in greater or lesser degree. Why single out the Dionnes? What makes their disagreement so spectacular? They are public figures, yes; but no more so than newspaper publishers. The latter, too, have domestic difficulties—some of which would make lively reading—but they are not concerned about in print, and there is no reason why they should be.

The quintuplets have left home, as most of us do at some time or another. They are at odds with the rest of the family, as most of us are at some time or another. Beyond that, what is there really to say? And who is there really to care?

## DON'T FORGET THE CONSUMER

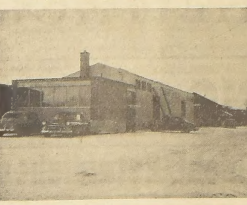

Businessmen, by their very nature, like having government tell them how to run their business.

Strange, therefore, to find some businessmen in Ontario who want to have municipal authorities tell them what to do in their business. They say they don't want to keep and whether or not they can stay open at night.

Keeping customers happy so that they will buy should be the principal concern of merchants. Municipal regulation is a poor way to go about getting more business and increasing sales.

Merchants who want to keep customers happy would do well to take carefully the following resolution

## Two years ago New Year's Day

It was two years ago New Year's Day that Lindsay's CNR freight sheds were levelled by a disastrous fire which broke out at the height of a blinding blizzard. It was afternoon before the fire was brought under control and in January 1955, a new freight shed, built by L. T. Branton & Co. is taking its place. The new building, situated on a part of the old site, is much more attractive and efficient in appearance.

of the Provincial Council of Women, which recently adopted a resolution which urges that "business hours for retail stores be based on the right of consumers to their shopping at all reasonable hours."

## DOWN THE DRAIN

Detroit stores were crowded last week, but many of the shoppers were unusually slow on the buying trigger. "When customers look over newspaper advertisements," one retailer said, "most of them are pre-sold. They know they want skates for the boy, and a tie for Uncle Bob, when they come in and wander about their counter to wait."

As Detroit's newspaper strike stretched into its fourth week, James Webber, executive vice president of J. L. Hudson—the city's mammoth downtown department store—pointed out that, while business was up over 1954 (when the city was undergoing a minor slump), volume "has not kept pace with the rate at which we were going prior to the emergency."

Others were feeling the pinch, too. The Times, The Press, and The News had probably lost, in the neighbourhood of \$3 million in advertising income since the strike began, and another \$500,000 or so in circulation revenue. The newspapers laid off by the three papers were already out between \$400, and \$500,000 weekly in wages.

On the strike front itself there was little apparent progress. Although the publishers and storekeepers were reportedly within \$750 a week of a wage agreement, at least two other unions had also asked permission of their executive boards to strike.

# Lions' Club Spares Other Relief Groups

Lindsay's Red Cross Society, the United Way, the Protestant Children's Aid Society, and the Salvation Army in Lindsay, were not to join the drive to raise money for the Red Cross, the Lions' Club has decided. The Lions' Club has decided to raise money for each organization, the Lions' Club has done and provided its own money for the Red Cross.

The Red Cross Chairman, Richard Smith, said that as long as it will leave the Lions' Club's funds turned out the Lions' Club will accept all the clothing items of the family and were prepared to give help when it was needed. The Lions' Club was going to use the situation, Mr. Smith said that on Thursday he investigated again and found that the Lions' Club was in need of nothing.

The chairman of the new World Committee Board of Lindsay said that the town was not asked to give help that they would give assistance at any time it has been needed.

Mr. Smith said that "The Post" that as a representative for the Santa Claus Christmas Fund, he had organized the Christmas fund for the fund would help but it was found the fund had taken over the re-establishment of the family.

Christmas Week of the Salvation Army, Mr. Smith said, was prepared the family with a quantity of goods, but it was found that it could not be ascertained if the Salvation Army had given or offered help.

# Says Anti-Polio Inoculations Won't Start Ear March

Toronto, Dec. 31.—(UPI)—Ontario's Deputy Minister of Health, D. J. Pratt, said the province-wide 1956 program of anti-polio inoculations won't get under way until March 1.

Pratt said the program of inoculating one and a half million Ontario children against polio this year has been planned and will be carried out in the spring. He said the delay in starting the program is due to the fact that the province's anti-polio inoculations are being taken over by the federal government. ## Convicted Gentile Minister's Prayer Brought Recovery To Jewish Babe

"God plays no favorites when it comes to answering prayer," Lindsay people declared today.

That is the firm conviction of Mrs. Lindsay, whose prayer brought a dramatic incident which occurred at the Rose Memorial Hospital during the Christmas season.

A Lindsay minister, who has asked to remain anonymous, was visiting the Children's Ward of the Rose Memorial Hospital, shortly before Christmas, when he observed a couple watching over their child who was seriously ill and recovering from a serious illness.

The minister said that if they could be helped, he would be pleased to pray for the child's recovery.

The parents told the minister that they would much appreciate the prayer, and the minister said that he would be pleased to pray for the child's recovery.

Something new is showing itself with ever-increasing prominence on the horizon south of Lindsay. It is the new motel which is started last fall and is now in the home stretch. The motel is being built by Stanley J. Targov and a reliable information indicates it will be in operation by about mid-January. Called the "Victoria Motel" it is a 20-room plan.

# Indians Coach Resigns, Says He's Discouraged By Boys' Disinterest

A member of the executive of the Junior Hockey club in Lindsay, John Thorne, reported to have informed the former coach, Don Hibbs on Friday that he had decided to "fold up the club."

Thursday night, the Junior's coach resigned from his position as coach. He said that he was discouraged by the boys' disinterest in the game.

Mr. Hibbs said he had been speaking with Mr. Thorne and was told the best thing to do now was to drop the Junior team in Lindsay at once. He said there was a scheduled home game with Park Secondary on Tuesday, but it was "foolish" to have them travel here for nothing.

The former coach said he has advocated that the Junior team go to the Juvenile League, but he has received no enthusiasm along these lines.

"The team is in terrible shape right now," said Mr. Hibbs. "We have no goaltender, and morale is low since the boys are going to travel every night."

Mr. Hibbs also pointed out that he has never had the same team which he practiced with, but for the following coaches.

Mr. Hibbs said that he would be pleased to coach the team, but the way it stands now it's useless."

# Minor Hockey and 8-3 For Three-Straight

## SEASON'S LARGEST CROWD ON HAND TO SEE SHARP TEAMWORK PAY OFF

Following the line change, Charvatski entered the puck in the Midland center, passed to Plisky at the front, who flipped to Horton at the open corner for a 3-0 lead at 4:30.

The visitors got one back at mid-penalty when they had a two-minute advantage. Cultivation coming from Lennox from a granular Carvath, a 3-1 Midland, breakaway pass to get the Indians two back at the last minute of the first period.

Midland put on their best attack at the start of the second period and gave goalie Joe a busy time. At 5:06 Simmons scored with assists to Armstrong and Jones.

The Indians quickly got them back in power, however, with the newest passing style of the game. Scott Lucas scored in Carvath at the Midland blue-line. Carvath drew the defense and passed to Horton coming in on a right wing shot.

Carvath opened the top corner at 7:40 before Morgan could make his first save.

Bill Menzies was penalized for closing his hand on the puck at 8:23 and the visitors went up for their power attack. Danny Pearson took the shot on the goal, but he was interrupted a pass and broke in the clear.

Menzies acted on Duggan, despite the goals out on position, and flipped the disc into the open side. Horton scored his third goal of the game at 8:58 with a beautiful shot.

A five-minute boarding penalty followed by a 10:00 stoppage. The Indians scored on a breakaway with Powers at 11:35 with Pearson and Armstrong sitting at a high sticking penalty.

Kelly and Spratt however, struck back with a vengeance scoring two goals in quick succession. Kelly scored from Spratt at 12:15 and Spratt took the following center face-off and cleared to Kelly and back to Spratt for the second goal seven seconds later.

Each team presented a minor penalty and so further contact followed. The visitors showed signs of weariness despite playing three games against the Indians two.

## SEEKED FLEE FROM FLOODING LOT

### Nitro Blast Robs Robbers Of Reward, Flee Empty-handed

In their weakened effort to blow open the safe on the premises of the British-American Oil Company storage depot, Hamilton St., Lindsay, over-enthusiastic safe crackers found they had used too much nitro-glycerine and not only blew open the safe, but blew up the contents as well.

Police report that the oil company's premises were entered when Balkis said there were many factors involved, but that he thinks that those convicted of inflicting any harm on anyone from jail to now and are back for local police to cope with, as well as the new police force, which is in all probability, was the explosion of the water which had been poured into the safe.

Police advised the safe contained about \$10 in cash and about \$10 in small change. These were destroyed by the force of the blast and the afterwards left empty-handed. Police found on the premises the nitro-glycerine which they used to crack the safe door.

After the B.A. storage depot was destroyed, the nitro-glycerine was used to crack the safe door. After the B.A. storage depot was destroyed, the nitro-glycerine was used to crack the safe door.

Chief of Police John T. Hunter stated that he is not in a position to say that the crime is not the work of "local talents" and was perpetrated by a group outside town.
